Company decision-making for geothermal projects

(GEOCAP course 1.07)

Topic: Exercise – self experimenting with XL model

Lecturer - Ir. Christian Bos

Public document (GEOCAP-2016-REP-TNO-1.07-xx)

XL model – playing around

- Take your time to go through XL model and try to get to know / understand it
 - Grasp fundamental assumptions first
- Write down questions, if you have any
- Think of possible improvements to the model
 - Note: this can also be done after the course (email comments to christian.bos@tno.nl)
- Report back during plenary discussion
